

RENZ®

BINDING AND LAMINATING SYSTEMS

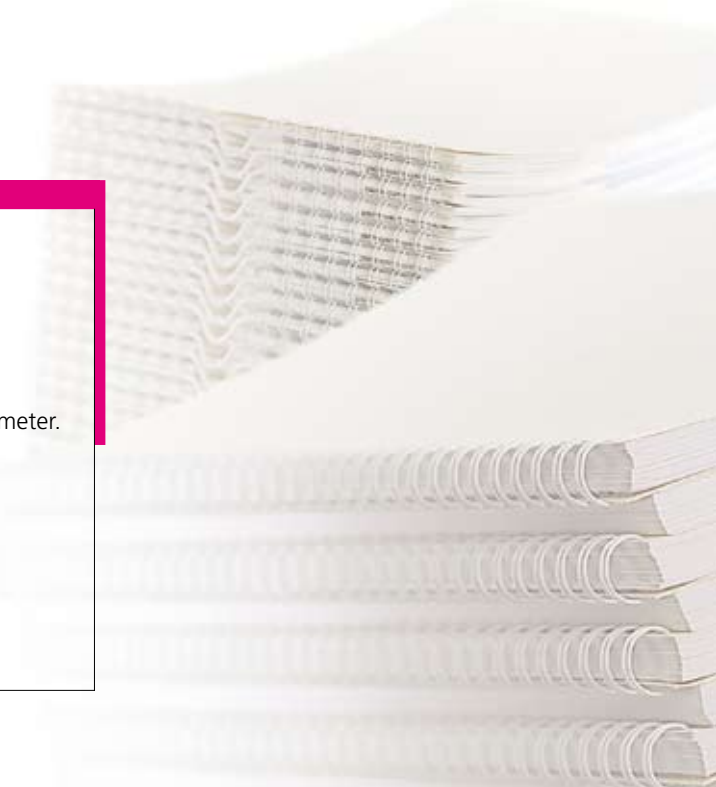

PROFESSIONAL LINE

RENZ INLINE 750

Fully automatic binding line
for books and calendars

FEATURES

- ⊕ Production line of the latest generation with fully automatic format changing.
 - ⊕ Punching and binding of up to 3.200 calendars/h with double flow processing.
 - ⊕ Changeover time of only 5 - 10 minutes within the same diameter.
 - ⊕ Large format range: 750 x 800 mm max.
 - ⊕ Interconnection with collating machines and packaging machines is possible.
- 

QSA-dies (quick size adjustment) allow for quick and simple deselection of punching pins.

Re-collating station.

Hard-wearing toothed belt to transport the paper.

Binding station with calendar hanger tool.

Double flow processing.

Automatic cover turner (optional).

Further options:

- Interconnection with collating machines
- Interconnection with shrink wrapping machines
- Automatic feeder - e.g. for supplying back covers
- Cross delivery

Integrated punching process for single hole opposite the punched side.
